Caitlin and Krista,

Attached is the link to the 308. Caitlin, can you put in the 40 C.F.R reference in. I put a comment in the side column indicating where it is. Also I am going to run it by one more time the science team to make sure I stated the questions correctly. I may add standard methods later depending on what everyone/DOJ thinks.

Excellent! Thanks so much for your flexibility. I am just glad I'm not responsible for scheduling the State/Fed enforcement meeting. 😊

That works for me. Anything that is not a priority will take a backseat to this meeting. Thanks Caitlin, never easy to coordinate schedules.....

Random conflicts aside – can I offer between 8am and 12pm on Thursdays to DOJ? We can always reschedule in a few months.

So, generally it appears that Thursdays might be okay. Except can't change a conflict on Nov 19th as it is required two day meeting.

Caitlin, mornings do appear slightly better for me but 8 am or later would work. My typical schedule is 6:30 am – 3:00 but I am working till 4:00 or later most days.

Also, looks like we are looking at November 23rd or 24th to do Electron site visit as that is the earliest that the Corps is willing to agree on.

Caitlin,
I am flexible the only thing I cant really move is the 830 AM Monday call or the 9:30 am Thursday call other than that things can be shuffled on my schedule.

Sure, right now I am trying to provide options that work for the three of us to send to DOJ and I cannot find a single time that works for us. I often have issues and meetings that come up which require me to work until 6pm, so a regular 7 am meeting isn't ideal.

In general, I can make mornings from 8-9 work if mornings are better for you.

Making our schedules work will be a challenge but we need to find a way to work together to make it work.

My schedule is crazy – I think one of the better times for me would be early Monday mornings..... or early Friday mornings (between 7 and 8??)

Can you both send me some times that would work for you to have a weekly check in with DOJ on Electron? I checked your calendars and I couldn't find a good time.

Thanks!
